*All donations from this event support Cancer Support Community's vital programs for cancer patients and families in the Bay Area.*

## MISSION MOMENT WITH DARRYL WONG

Darryl Wong is a Cancer Support Community participant who is celebrating life and resilience after his diagnosis of Stage 1 colorectal cancer in late 2024. Retired from leading public health efforts in HIV/AIDS and pandemic responses in New York City, Darryl now shares his gratitude and hope with our community. He and his husband are embracing retirement, travel, and the opportunity to make a difference in their local community.
